Isocortex (**Isocortex**) / Frontal pole cerebral cortex (**FRP**)
Isocortex (**Isocortex**) / Somatomotor areas (**MO**) / Primary motor area (**MOp**)
Isocortex (**Isocortex**) / Somatomotor areas (**MO**) / Secondary motor area (**MOs**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Primary somatosensory area (**SSp**) / Primary somatosensory area nose (**SSp-n**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Primary somatosensory area (**SSp**) / Primary somatosensory area barrel field (**SSp-bfd**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Primary somatosensory area (**SSp**) / Primary somatosensory area lower limb (**SSp-ll**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Primary somatosensory area (**SSp**) / Primary somatosensory area mouth (**SSp-m**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Primary somatosensory area (**SSp**) / Primary somatosensory area upper limb (**SSp-ul**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Primary somatosensory area (**SSp**) / Primary somatosensory area trunk (**SSp-tr**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Primary somatosensory area (**SSp**) / Primary somatosensory area unassigned (**SSp-un**)
Isocortex (**Isocortex**) / Somatosensory areas (**SS**) / Supplemental somatosensory area (**SSs**)
Isocortex (**Isocortex**) / Gustatory areas (**GU**)
Isocortex (**Isocortex**) / Visceral area (**VISC**)
Isocortex (**Isocortex**) / Auditory areas (**AUD**) / Dorsal auditory area (**AUDd**)
Isocortex (**Isocortex**) / Auditory areas (**AUD**) / Primary auditory area (**AUDp**)
Isocortex (**Isocortex**) / Auditory areas (**AUD**) / Posterior auditory area (**AUDpo**)
Isocortex (**Isocortex**) / Auditory areas (**AUD**) / Ventral auditory area (**AUDv**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / Anterolateral visual area (**VISal**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / Anteromedial visual area (**VISam**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / Lateral visual area (**VISl**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / Primary visual area (**VISp**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / Posterolateral visual area (**VISpl**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / posteromedial visual area (**VISpm**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / Laterointermediate area (**VISli**)
Isocortex (**Isocortex**) / Visual areas (**VIS**) / Postrhinal area (**VISpor**)
Isocortex (**Isocortex**) / Anterior cingulate area (**ACA**) / Anterior cingulate area dorsal part (**ACAd**)
Isocortex (**Isocortex**) / Anterior cingulate area (**ACA**) / Anterior cingulate area ventral part (**ACAv**)
Isocortex (**Isocortex**) / Prelimbic area (**PL**)
Isocortex (**Isocortex**) / Infralimbic area (**ILA**)
Isocortex (**Isocortex**) / Orbital area (**ORB**) / Orbital area lateral part (**ORBl**)
Isocortex (**Isocortex**) / Orbital area (**ORB**) / Orbital area medial part (**ORBm**)
Isocortex (**Isocortex**) / Orbital area (**ORB**) / Orbital area ventrolateral part (**ORBvl**)
Isocortex (**Isocortex**) / Agranular insular area (**AI**) / Agranular insular area dorsal part (**AId**)
Isocortex (**Isocortex**) / Agranular insular area (**AI**) / Agranular insular area posterior part (**AIp**)
Isocortex (**Isocortex**) / Agranular insular area (**AI**) / Agranular insular area ventral part (**AIv**)
Isocortex (**Isocortex**) / Retrosplenial area (**RSP**) / Retrosplenial area lateral agranular part (**RSPagl**)
Isocortex (**Isocortex**) / Retrosplenial area (**RSP**) / Retrosplenial area dorsal part (**RSPd**)
Isocortex (**Isocortex**) / Retrosplenial area (**RSP**) / Retrosplenial area ventral part (**RSPv**)
Isocortex (**Isocortex**) / Posterior parietal association areas (**PTLp**) / Anterior area (**VISa**)
Isocortex (**Isocortex**) / Posterior parietal association areas (**PTLp**) / Rostrolateral visual area (**VISrl**)
Isocortex (**Isocortex**) / Temporal association areas (**TEa**)
Isocortex (**Isocortex**) / Perirhinal area (**PERI**)
Isocortex (**Isocortex**) / Ectorhinal area (**ECT**)
Olfactory areas (**OLF**) / Main olfactory bulb (**MOB**)
Olfactory areas (**OLF**) / Anterior olfactory nucleus (**AON**)
Olfactory areas (**OLF**) / Taenia tecta (**TT**) / Taenia tecta dorsal part (**TTd**)
Olfactory areas (**OLF**) / Dorsal peduncular area (**DP**)
Olfactory areas (**OLF**) / Piriform area (**PIR**)
Olfactory areas (**OLF**) / Cortical amygdalar area (**COA**) / Cortical amygdalar area posterior part (**COAp**)
Olfactory areas (**OLF**) / Piriform-amygdalar area (**PAA**)
Olfactory areas (**OLF**) / Postpiriform transition area (**TR**)
Hippocampal formation (**HPF**) / Hippocampal region (**HIP**) / Ammon's horn (**CA**) / Field CA1 (**CA1**)
Hippocampal formation (**HPF**) / Hippocampal region (**HIP**) / Ammon's horn (**CA**) / Field CA2 (**CA2**)
Hippocampal formation (**HPF**) / Hippocampal region (**HIP**) / Ammon's horn (**CA**) / Field CA3 (**CA3**)
Hippocampal formation (**HPF**) / Hippocampal region (**HIP**) / Dentate gyrus (**DG**)
Hippocampal formation (**HPF**) / Hippocampal region (**HIP**) / Fasciola cinerea (**FC**)
Hippocampal formation (**HPF**) / Hippocampal region (**HIP**) / Induseum griseum (**IG**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Entorhinal area (**ENT**) / Entorhinal area lateral part (**ENTl**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Entorhinal area (**ENT**) / Entorhinal area medial part dorsal zone (**ENTm**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Parasubiculum (**PAR**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Postsubiculum (**POST**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Presubiculum (**PRE**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Subiculum (**SUB**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Prosubiculum (**ProS**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Hippocampo-amygdalar transition area (**HATA**)
Hippocampal formation (**HPF**) / Retrohippocampal region (**RHP**) / Area prostriata (**APr**)
Cortical subplate (**CTXsp**) / Claustrum (**CLA**)
Cortical subplate (**CTXsp**) / Endopiriform nucleus (**EP**) / Endopiriform nucleus dorsal part (**EPd**)
Cortical subplate (**CTXsp**) / Endopiriform nucleus (**EP**) / Endopiriform nucleus ventral part (**EPv**)
Cortical subplate (**CTXsp**) / Lateral amygdalar nucleus (**LA**)
Cortical subplate (**CTXsp**) / Basolateral amygdalar nucleus (**BLA**)
Cortical subplate (**CTXsp**) / Basomedial amygdalar nucleus (**BMA**)
Cortical subplate (**CTXsp**) / Posterior amygdalar nucleus (**PA**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum dorsal region (**STRd**) / Caudoputamen (**CP**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum ventral region (**STRv**) / Nucleus accumbens (**ACB**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum ventral region (**STRv**) / Fundus of striatum (**FS**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum ventral region (**STRv**) / Olfactory tubercle (**OT**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Lateral septal complex (**LSX**) / Lateral septal nucleus (**LS**) / Lateral septal nucleus caudal (caudodorsal) part (**LSc**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Lateral septal complex (**LSX**) / Lateral septal nucleus (**LS**) / Lateral septal nucleus rostral (rostroventral) part (**LSr**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Lateral septal complex (**LSX**) / Lateral septal nucleus (**LS**) / Lateral septal nucleus ventral part (**LSv**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Lateral septal complex (**LSX**) / Septofimbrial nucleus (**SF**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Lateral septal complex (**LSX**) / Septohippocampal nucleus (**SH**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum-like amygdalar nuclei (**sAMY**) / Anterior amygdalar area (**AAA**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum-like amygdalar nuclei (**sAMY**) / Central amygdalar nucleus (**CEA**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum-like amygdalar nuclei (**sAMY**) / Intercalated amygdalar nucleus (**IA**)
Cerebral nuclei (**CNU**) / Striatum (**STR**) / Striatum-like amygdalar nuclei (**sAMY**) / Medial amygdalar nucleus (**MEA**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum dorsal region (**PALd**) / Globus pallidus external segment (**GPe**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum dorsal region (**PALd**) / Globus pallidus internal segment (**GPi**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum ventral region (**PALv**) / Substantia innominata (**SI**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum ventral region (**PALv**) / Magnocellular nucleus (**MA**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum medial region (**PALm**) / Medial septal complex (**MSC**) / Medial septal nucleus (**MS**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum medial region (**PALm**) / Medial septal complex (**MSC**) / Diagonal band nucleus (**NDB**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum medial region (**PALm**) / Triangular nucleus of septum (**TRS**)
Cerebral nuclei (**CNU**) / Pallidum (**PAL**) / Pallidum caudal region (**PALc**) / Bed nuclei of the stria terminalis (**BST**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Ventral group of the dorsal thalamus (**VENT**) / Ventral anterior-lateral complex of the thalamus (**VAL**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Ventral group of the dorsal thalamus (**VENT**) / Ventral medial nucleus of the thalamus (**VM**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Ventral group of the dorsal thalamus (**VENT**) / Ventral posterior complex of the thalamus (**VP**) / Ventral posterolateral nucleus of the thalamus (**VPL**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Ventral group of the dorsal thalamus (**VENT**) / Ventral posterior complex of the thalamus (**VP**) / Ventral posterolateral nucleus of the thalamus parvicellular part (**VPLpc**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Ventral group of the dorsal thalamus (**VENT**) / Ventral posterior complex of the thalamus (**VP**) / Ventral posteromedial nucleus of the thalamus (**VPM**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Ventral group of the dorsal thalamus (**VENT**) / Ventral posterior complex of the thalamus (**VP**) / Ventral posteromedial nucleus of the thalamus parvicellular part (**VPMpc**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Ventral group of the dorsal thalamus (**VENT**) / Posterior triangular thalamic nucleus (**PoT**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Subparafascicular nucleus (**SPF**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Subparafascicular area (**SPA**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Peripeduncular nucleus (**PP**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Geniculate group dorsal thalamus (**GENd**) / Medial geniculate complex (**MG**)
Thalamus (**TH**) / Thalamus sensory-motor cortex related (**DORsm**) / Geniculate group dorsal thalamus (**GENd**) / Dorsal part of the lateral geniculate complex (**LGd**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Lateral group of the dorsal thalamus (**LAT**) / Lateral posterior nucleus of the thalamus (**LP**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Lateral group of the dorsal thalamus (**LAT**) / Posterior complex of the thalamus (**PO**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Lateral group of the dorsal thalamus (**LAT**) / Posterior limiting nucleus of the thalamus (**POL**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Lateral group of the dorsal thalamus (**LAT**) / Suprageniculate nucleus (**SGN**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Lateral group of the dorsal thalamus (**LAT**) / Ethmoid nucleus of the thalamus (**Eth**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Anterior group of the dorsal thalamus (**ATN**) / Anteroventral nucleus of thalamus (**AV**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Anterior group of the dorsal thalamus (**ATN**) / Anteromedial nucleus (**AM**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Anterior group of the dorsal thalamus (**ATN**) / Anterodorsal nucleus (**AD**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Anterior group of the dorsal thalamus (**ATN**) / Interanterodorsal nucleus of the thalamus (**IAD**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Anterior group of the dorsal thalamus (**ATN**) / Lateral dorsal nucleus of thalamus (**LD**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Medial group of the dorsal thalamus (**MED**) / Intermediodorsal nucleus of the thalamus (**IMD**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Medial group of the dorsal thalamus (**MED**) / Mediodorsal nucleus of thalamus (**MD**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Medial group of the dorsal thalamus (**MED**) / Submedial nucleus of the thalamus (**SMT**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Medial group of the dorsal thalamus (**MED**) / Perireunensis nucleus (**PR**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Midline group of the dorsal thalamus (**MTN**) / Paraventricular nucleus of the thalamus (**PVT**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Midline group of the dorsal thalamus (**MTN**) / Parataenial nucleus (**PT**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Midline group of the dorsal thalamus (**MTN**) / Nucleus of reuniens (**RE**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Intralaminar nuclei of the dorsal thalamus (**ILM**) / Rhomboid nucleus (**RH**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Intralaminar nuclei of the dorsal thalamus (**ILM**) / Central medial nucleus of the thalamus (**CM**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Intralaminar nuclei of the dorsal thalamus (**ILM**) / Paracentral nucleus (**PCN**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Intralaminar nuclei of the dorsal thalamus (**ILM**) / Central lateral nucleus of the thalamus (**CL**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Intralaminar nuclei of the dorsal thalamus (**ILM**) / Parafascicular nucleus (**PF**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Intralaminar nuclei of the dorsal thalamus (**ILM**) / Posterior intralaminar thalamic nucleus (**PIL**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Reticular nucleus of the thalamus (**RT**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Geniculate group ventral thalamus (**GENv**) / Intergeniculate leaflet of the lateral geniculate complex (**IGL**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Geniculate group ventral thalamus (**GENv**) / Intermediate geniculate nucleus (**IntG**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Geniculate group ventral thalamus (**GENv**) / Ventral part of the lateral geniculate complex (**LGv**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Geniculate group ventral thalamus (**GENv**) / Subgeniculate nucleus (**SubG**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Epithalamus (**EPI**) / Medial habenula (**MH**)
Thalamus (**TH**) / Thalamus polymodal association cortex related (**DORpm**) / Epithalamus (**EPI**) / Lateral habenula (**LH**)
Hypothalamus (**HY**) / Periventricular zone (**PVZ**) / Paraventricular hypothalamic nucleus (**PVH**)
Hypothalamus (**HY**) / Periventricular region (**PVR**) / Anteroventral preoptic nucleus (**AVP**)
Hypothalamus (**HY**) / Periventricular region (**PVR**) / Dorsomedial nucleus of the hypothalamus (**DMH**)
Hypothalamus (**HY**) / Periventricular region (**PVR**) / Median preoptic nucleus (**MEPO**)
Hypothalamus (**HY**) / Periventricular region (**PVR**) / Medial preoptic area (**MPO**)
Hypothalamus (**HY**) / Periventricular region (**PVR**) / Parastrial nucleus (**PS**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Anterior hypothalamic nucleus (**AHN**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Mammillary body (**MBO**) / Lateral mammillary nucleus (**LM**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Mammillary body (**MBO**) / Medial mammillary nucleus (**MM**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Mammillary body (**MBO**) / Supramammillary nucleus (**SUM**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Medial preoptic nucleus (**MPN**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Dorsal premammillary nucleus (**PMd**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Paraventricular hypothalamic nucleus descending division (**PVHd**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Ventromedial hypothalamic nucleus (**VMH**)
Hypothalamus (**HY**) / Hypothalamic medial zone (**MEZ**) / Posterior hypothalamic nucleus (**PH**)
Hypothalamus (**HY**) / Hypothalamic lateral zone (**LZ**) / Lateral hypothalamic area (**LHA**)
Hypothalamus (**HY**) / Hypothalamic lateral zone (**LZ**) / Lateral preoptic area (**LPO**)
Hypothalamus (**HY**) / Hypothalamic lateral zone (**LZ**) / Parasubthalamic nucleus (**PSTN**)
Hypothalamus (**HY**) / Hypothalamic lateral zone (**LZ**) / Perifornical nucleus (**PeF**)
Hypothalamus (**HY**) / Hypothalamic lateral zone (**LZ**) / Subthalamic nucleus (**STN**)
Hypothalamus (**HY**) / Hypothalamic lateral zone (**LZ**) / Tuberal nucleus (**TU**)
Hypothalamus (**HY**) / Hypothalamic lateral zone (**LZ**) / Zona incerta (**ZI**)
Midbrain (**MB**) / Midbrain sensory related (**MBsen**) / Superior colliculus sensory related (**SCs**)
Midbrain (**MB**) / Midbrain sensory related (**MBsen**) / Inferior colliculus (**IC**)
Midbrain (**MB**) / Midbrain sensory related (**MBsen**) / Nucleus of the brachium of the inferior colliculus (**NB**)
Midbrain (**MB**) / Midbrain sensory related (**MBsen**) / Nucleus sagulum (**SAG**)
Midbrain (**MB**) / Midbrain sensory related (**MBsen**) / Parabigeminal nucleus (**PBG**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Substantia nigra reticular part (**SNr**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Ventral tegmental area (**VTA**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Midbrain reticular nucleus retrorubral area (**RR**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Midbrain reticular nucleus (**MRN**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Superior colliculus motor related (**SCm**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Periaqueductal gray (**PAG**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Pretectal region (**PRT**) / Anterior pretectal nucleus (**APN**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Pretectal region (**PRT**) / Nucleus of the optic tract (**NOT**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Pretectal region (**PRT**) / Nucleus of the posterior commissure (**NPC**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Pretectal region (**PRT**) / Olivary pretectal nucleus (**OP**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Pretectal region (**PRT**) / Posterior pretectal nucleus (**PPT**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Pretectal region (**PRT**) / Retroparafascicular nucleus (**RPF**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Cuneiform nucleus (**CUN**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Red nucleus (**RN**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Oculomotor nucleus (**III**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Anterior tegmental nucleus (**AT**)
Midbrain (**MB**) / Midbrain motor related (**MBmot**) / Dorsal terminal nucleus of the accessory optic tract (**DT**)
Midbrain (**MB**) / Midbrain behavioral state related (**MBsta**) / Substantia nigra compact part (**SNc**)
Midbrain (**MB**) / Midbrain behavioral state related (**MBsta**) / Pedunculopontine nucleus (**PPN**)
Midbrain (**MB**) / Midbrain behavioral state related (**MBsta**) / Midbrain raphe nuclei (**RAmb**) / Interfascicular nucleus raphe (**IF**)
Midbrain (**MB**) / Midbrain behavioral state related (**MBsta**) / Midbrain raphe nuclei (**RAmb**) / Interpeduncular nucleus (**IPN**)
Midbrain (**MB**) / Midbrain behavioral state related (**MBsta**) / Midbrain raphe nuclei (**RAmb**) / Rostral linear nucleus raphe (**RL**)
Midbrain (**MB**) / Midbrain behavioral state related (**MBsta**) / Midbrain raphe nuclei (**RAmb**) / Central linear nucleus raphe (**CLI**)
Midbrain (**MB**) / Midbrain behavioral state related (**MBsta**) / Midbrain raphe nuclei (**RAmb**) / Dorsal nucleus raphe (**DR**)
Hindbrain (**HB**) / Pons (**P**) / Pons sensory related (**P-sen**) / Nucleus of the lateral lemniscus (**NLL**)
Hindbrain (**HB**) / Pons (**P**) / Pons sensory related (**P-sen**) / Principal sensory nucleus of the trigeminal (**PSV**)
Hindbrain (**HB**) / Pons (**P**) / Pons sensory related (**P-sen**) / Parabrachial nucleus (**PB**)
Hindbrain (**HB**) / Pons (**P**) / Pons sensory related (**P-sen**) / Superior olivary complex (**SOC**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Dorsal tegmental nucleus (**DTN**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Posterodorsal tegmental nucleus (**PDTg**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Pontine central gray (**PCG**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Pontine gray (**PG**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Pontine reticular nucleus caudal part (**PRNc**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Supratrigeminal nucleus (**SUT**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Tegmental reticular nucleus (**TRN**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Motor nucleus of trigeminal (**V**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Peritrigeminal zone (**P5**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Parvicellular motor 5 nucleus (**PC5**)
Hindbrain (**HB**) / Pons (**P**) / Pons motor related (**P-mot**) / Intertrigeminal nucleus (**I5**)
Hindbrain (**HB**) / Pons (**P**) / Pons behavioral state related (**P-sat**) / Superior central nucleus raphe (**CS**)
Hindbrain (**HB**) / Pons (**P**) / Pons behavioral state related (**P-sat**) / Laterodorsal tegmental nucleus (**LDT**)
Hindbrain (**HB**) / Pons (**P**) / Pons behavioral state related (**P-sat**) / Nucleus incertus (**NI**)
Hindbrain (**HB**) / Pons (**P**) / Pons behavioral state related (**P-sat**) / Pontine reticular nucleus (**PRNr**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Cochlear nuclei (**CN**) / Dorsal cochlear nucleus (**DCO**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Cochlear nuclei (**CN**) / Ventral cochlear nucleus (**VCO**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Dorsal column nuclei (**DCN**) / Cuneate nucleus (**CU**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Dorsal column nuclei (**DCN**) / Gracile nucleus (**GR**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / External cuneate nucleus (**ECU**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Nucleus of the solitary tract (**NTS**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Spinal nucleus of the trigeminal caudal part (**SPVC**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Spinal nucleus of the trigeminal interpolar part (**SPVI**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Spinal nucleus of the trigeminal oral part (**SPVO**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla sensory related (**MY-sen**) / Paratrigeminal nucleus (**Pa5**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Facial motor nucleus (**VII**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Nucleus ambiguus (**AMB**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Dorsal motor nucleus of the vagus nerve (**DMX**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Gigantocellular reticular nucleus (**GRN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Infracerebellar nucleus (**ICB**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Inferior olivary complex (**IO**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Intermediate reticular nucleus (**IRN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Linear nucleus of the medulla (**LIN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Lateral reticular nucleus (**LRN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Magnocellular reticular nucleus (**MARN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Medullary reticular nucleus (**MDRN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Parvicellular reticular nucleus (**PARN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Parasolitary nucleus (**PAS**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Paragigantocellular reticular nucleus (**PGRN**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Perihypoglossal nuclei (**PHY**) / Nucleus prepositus (**PRP**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Vestibular nuclei (**VNC**) / Lateral vestibular nucleus (**LAV**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Vestibular nuclei (**VNC**) / Medial vestibular nucleus (**MV**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Vestibular nuclei (**VNC**) / Spinal vestibular nucleus (**SPIV**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Vestibular nuclei (**VNC**) / Superior vestibular nucleus (**SUV**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Nucleus x (**x**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla motor related (**MY-mot**) / Hypoglossal nucleus (**XII**)
Hindbrain (**HB**) / Medulla (**MY**) / Medulla behavioral state related (**MY-sat**) / Nucleus raphe obscurus (**RO**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Lingula (I) (**LING**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Central lobule (**CENT**) / Lobule II (**CENT2**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Central lobule (**CENT**) / Lobule III (**CENT3**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Culmen (**CUL**) / Lobules IV-V (**CUL4 5**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Declive (VI) (**DEC**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Folium-tuber vermis (VII) (**FOTU**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Pyramus (VIII) (**PYR**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Uvula (IX) (**UVU**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Vermal regions (**VERM**) / Nodulus (X) (**NOD**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Hemispheric regions (**HEM**) / Simple lobule (**SIM**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Hemispheric regions (**HEM**) / Ansiform lobule (**AN**) / Crus 1 (**ANcr1**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Hemispheric regions (**HEM**) / Ansiform lobule (**AN**) / Crus 2 (**ANcr2**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Hemispheric regions (**HEM**) / Paramedian lobule (**PRM**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Hemispheric regions (**HEM**) / Copula pyramidis (**COPY**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Hemispheric regions (**HEM**) / Paraflocculus (**PFL**)
Cerebellum (**CB**) / Cerebellar cortex (**CBX**) / Hemispheric regions (**HEM**) / Flocculus (**FL**)
Cerebellum (**CB**) / Cerebellar nuclei (**CBN**) / Fastigial nucleus (**FN**)
Cerebellum (**CB**) / Cerebellar nuclei (**CBN**) / Interposed nucleus (**IP**)
Cerebellum (**CB**) / Cerebellar nuclei (**CBN**) / Dentate nucleus (**DN**)
Cerebellum (**CB**) / Cerebellar nuclei (**CBN**) / Vestibulocerebellar nucleus (**VeCB**)
